Revised estimate for Rs 10,200/- for laying out street sewers in the West End Hotel area, Bangalore City

---

With reference to your letter No L-4330 dated 28th November 1945 calling for my remarks on the resolution of the Municipal Council regarding the recovery of the cost of sewage works in Government Extensions, I have the honour to state as follows -

The underground drainage work pertaining to the Western Hotel is item IV (4) of the sanctioned Comprehensive Scheme of 1941, and consists of 3,164 running feet of 7" sub-main with 19 man-holes In the year 1942, Messrs Spencer & Co , the proprietors of the hotel, volunteered to contribute onehalf of the estimated cost, viz, Rs 5,250/-, provided the Municipality arranged for the construction of the sub-main The Municipality accepted the offer and transferred the contribution received to the Drainage Division with a request that the work be put on hand and completed as soon as possible

When the work was in progress it was discovered that this sub-main could also be made to serve the Kumara Park Extension (East) which had come into existence behind the Western Hotel, by changing the diameter of the meter from 7" to 9" to a length of 750 feet towards the end Accordingly the estimate was revised and the work completed at a total cost of Rs 10,626-14-0 Out of this amount a sum of Rs 426-8-0 being the extra cost due to the change in the diameter of the sub-main was debited to the Buildings Division which formed the Extension There is thus no substance in the complaint of the Municipality that the cost of underground drainage in the Kumara Park (East) Extension has been charged to the Municipal Funds
